

What an honor to experience this space, your space whose doors you have warmly opened for creatives, friends and curious souls. What an honor to experience you, Kwacakworo, as a person, as a friend. Your hospitality, kindness, and passion in what do, did and believe in is quite inspiring!

As a creative, this has been one of the most wonderful opportunities for me to get inspired by the incredible creations that have found home in your house, to reconnect with self through nature and to create. I know for sure the noble vision of the Kwacakworo Association and the artist residency program will eventually be successful!

This space has a “soul” and that is what makes it priceless!

Thank you for the beautiful hikes and walk in nature. I cherish the many nights by the fire in the room of Friendship - Cheers to good health!

Looking forward to more beautiful moment at the room of friendship!

Until next time - cheers 🍷

With love
Minagano
